Prathamesha C Shetty

EDUCATION

undergraduate, PES Institute of technology and management, India, Shivamogga

2022 - Now

I secured 88% in my SSLC and 81.5% in my Pre-University Education and am currently pursuing a Bachelor of Engineering in Computer Science and Design at PESITM with a CGPA of 7.75. I specialize in web development, with experience designing responsive websites using WordPress and proficiency in HTML, CSS, JavaScript, and basic Python. I am developing an AI Career Advisor project to provide personalized career guidance and have completed an NPTEL certification in Web Design and Development. Additionally, I have participated in zonal and state-level cricket selections, reflecting my dedication to both academics and sports.

CSS And JavaScript Programming Language And Python Programming Language Complete Course, Udemy

2023

CSS Programming Course for Beginners to Advanced., Udemy

2024

PROJECTS

Developed a database management system for the Sports Department to streamline scheduling, inventory, and performance tracking using MySQL and PHP. Contributed to *CareerWise*, an AI-based career advisor platform, by implementing machine learning algorithms, NLP modules, and recommendation systems with Python and TensorFlow. Designed and maintained a responsive website for the [Your Branch Name/Department] to showcase achievements and provide academic resources using HTML, CSS, and JavaScript.
